The exporter follows the steps that were able to be: commercial invoice of products included in the source test. The source certification, the corresponding commercial format is selected. Once the information requested are concluded: the product is selected for which a sworn statement of origin was previously presented) and provides the requested information. Attached to the judgment declaration, he scanned the commercial invoice of the assets that the test of origin is signed. The format of the source test is signed and sent: using the digital signature acquired for a provider of this informal medium, the format, which is sent by the order request of the source test to the sectional direction selected by the exporter. Expedium of the origin test by authorized officer: R. The format of the origin test, the authorized operation of Dian, verifies its conclusion and the concordance with the commercial invoice, and emit the document through its Signature and manuscript seal of the entity. The source tests are also issued as documents, when it was agreed in this way with the parties in a trade agreement (at the time with Chile, Xico and Ecuador) and therefore the authorized officer issued the document with A digital signature. The sectional direction of the original Diane of the origin test emitted: the exporter The original of the source test issued by DIAN in the referred sectional direction. Such cases are: elaboration and presentation of the declaration of origin: through this trader, you can know the procedure with which the Origin Certificate Origin Test Document It can be obtained through which the origin of Colombian products is credited to the destination of export, in order to take advantage of the tariff preferentials established in the different commercial agreements signed by the colon and unilateral preferences granted within of the structure of the general preference system. Documentation and requirements for the certification of origin: to be a producer of the commodity. The certificate of origin is a request that allows the documentary test of origin by which it is credited that the products were prepared in the colon. The natural or legal person must be registered in the Tax Registry (RUT) with the economic activity that corresponds to the production of the product submitted to the declaration of sworn origin. Declaration of origin, someone else has someone else, the producer will make the process of association, for which he should: request the association: before sending the declaration of sworn origin, he must request the coordination of the Source of Origin through the email: www.mandatos-origen@dian.gov.co, the association of the two people. With a power for the purpose of properly granted, registration and citizens of the legal representatives of the two companies: Scanned to the request of the scanned producer must collect the requested information and based on the origin rules of Corresponding care agreement praises the fulfillment of the same The origin criterion corresponding to the product. * Collect the information on production and select the corresponding source criterion: Get digital signature: Before sending the declaration of sworn origin, the producer (or the person who will do the procedure) that you must obtain a digital signature for one of the following providers: certificate, electronic management system - SGE or Andes SCD.ABING and presentation of the statement of sworn origin (recommends to lower the procedure of the source of the certificate to the certificate). The procedure must follow the following steps: download the informal "Tool" of Dian's Dian's Opt Surfing Declaration O Origin ... certificate of origin, which is obtained in 1 <https://www.dian.gov.co/aduanas/aspectCarcances/documents/PASS%20Certified%20de%20origen.pdf> (the instructions are in the procedure certificate of the source ADO Guide) This step ends with the discharge of the tool that allows the producer to elaborate declarations of Origin on your computer. Filigation of the legal declaration form: using the tool discharged on the computer, the declaration is diligent with all the information and the criterion of corresponding origin is selected. Income from the legal declaration form: using the digital signature acquired for one of the above-mentioned suppliers, with which it is ready on your computer, interrupts the "send" procedure of the declaration of a sworn origin: through the informal system, the producer sends the declaration of sworn origin, with which he sends as presented, a fact that allows him to request the exportation of origin Diana - producer authorization to a The procedure is necessary when the exporter is not the same producer of the product, in which the producer should: create marketing professional: through the informal Dian system, the "Crea" producer or register company that will export the products) to which he presented declarations of sworn origin. For this record, the following data from the marketer professional is reported: Social Razel for the marketing of the exporter who registered, the product or products to which he sent sworn decisions. Smocked decision of simplified origin: Dian's informal system generates a declaration of sworn origin for the exporter's edition, a fact that allows us to request evidences to dian. Request of Expedition of the Certificate Origin-Solicita the expedition of a source test. Treating a digital test, it will be available for consultation by the customs authorities of the importation of informal means. It is the original original test of origin: the exporter, through his handwritten signature, declares under the seriousness of the oath, which fulfills the rules of origin of the corresponding trade agreement. Early importer testing to importer: The exporter sent the source test to the importer. The application can be done through the platform: with the no.
